## SOURCE MATERIAL FOR LINCOLN'S BIRTHDAY

Nearly every organized group which convenes in February plans a Lincoln or Washington meeting, at which time some one is invited to speak about one of these outstanding American characters.

The chief difficulty confronting those who would address such gatherings is finding something about Lincoln which has not been worn threadbare by constant using. While Lincoln Lore may not achieve a high standard of literary excellence, it does attempt to present data which it is difficult to find in most of the standard works on Lincoln.

This number is prepared with the object in view of assisting those who have a file of Lincoln Lore, to assemble their data so that it may be used as source material for a Lincoln address or program.

Aside from the subjects suggested here, one may turn to the issue of January 11, 1932, and find another series of outlines which might suggest other topics of interest. The reading time of Lincoln Lore is about seven minutes. This allows one using these bulletins to estimate quite accurately the time to be consumed by the reading of one or a series of the bulletins.

We regret to say that the constant demands for back numbers of Lincoln Lore has largely depleted our files, but we are very glad to supply extra copies where they are available.

The numerals appearing opposite the titles indicate the number of Lincoln Lore containing the information desired.

The outlines presented here are arranged chronologically so that it is possible to prepare a paper on the life of Lincoln by selecting some topic from each separate outline.

## THE SPEAKER'S BUREAU

The increasing number of enrollments in our Speaker's Bureau makes possible the suggestion of available men and women.

Our Speaker's Bureau contains the names of a large number of men and women who are available for addresses. This makes it possible for us to put groups in any part of the country in touch with people who are informed about Lincoln.

The Foundation, however, merely serves as a medium of contact between an interested group and a prospective speaker. Inasmuch as some Lincoln students are available, gratis, while others require a fee, all negotiations looking to an engagement must be carried on between the interested parties.

The director of the Foundation can be secured for addresses where an attendance of fifty or more can be assured. No fee is charged for his services over and above his traveling expenses.
